

Air Holders

TGW International can supply air holders listed below as well as specials. All air holders come with slitter, axle, bearing and hose assembly.

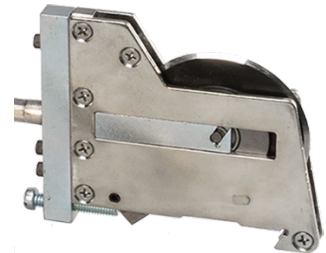

TGW's 1/2" Air Holder is the mainstay for converters throughout the industry. Shipped from Stock, it is ready to mount with hardened sideplates, standard score knife and flexible hose. Options: Perf Wheels, Sealed Bearings, Steel Braided Hose, Quick Clamp Dovetail Mounts, replacement parts and more...
